1	Section 3.4 & Section 13	25 & 158	In case of Multicast based video streaming, the entire multicast traffic is to be managed by the bidder. Bidder to consider the suitable network equipment in the proposed solution.	<p>The video streaming shall be Multicast based and the entire multicast traffic is to be managed by the bidder. The bidder has to propose the appropriate network equipment as part of their technical solution and the selected System Integrator has to suitably arrange for the same.</p> <p>APSFL will be a carrier network and act as a pass through for surveillance traffic and will provide with a surveillance VPN to carry the traffic. Bidders should create an overlay network on the APSFL network to carry their multicast traffic. The proposed overlay solution should ensure that the multicast from all the cameras (around 20,000) reaches the recording locations and also to the viewing stations.</p>
